NURSERY STOCK, PLANT, AND SEED QUARANTINE.

NOTICE OF QUARANTINE NO. 37, WITH REGULATIONS.

[Effective on and after June 1, 1919.]

INTRODUCTORY NOTE.

Quarantine No. 37 with regulations, governing the entry of nursery stock and other plants and seeds, supersedes, on and after June 1, 1919, the regulations now in force governing the importation of nursery stock, and brings under restrictions all other plants and plant products for or capable of propagation.

Regulation 2 under this quarantine provides that fruits, vegetables, cereals, and other plant products for or capable of propagation, intended for medicinal, food, or manufacturing purposes, and field, vegetable, and flower seeds, may be imported without permit or other restrictions.

Regulation 3 enumerates the classes of plants which may be imported for propagation under permit and on compliance with the other requirements of the regulations. These classes comprise certain bulbs, rose stocks, fruit stocks, including cuttings, scions and buds, and seeds of nut, fruit, forest, and other ornamental and shade trees and of hardy perennial ornamental shrubs. The entry of these classes of nursery stock and other plants and seeds is represented by experts to be essential to the floriculture and horticulture of this country under existing conditions.

The entry of plants or classes of plants or plant products for or capable of propagation, not specifically provided for in regulations 2 and 3, from any foreign locality or country is restricted to importations by the United States Department of Agriculture for experimental or scientific purposes.

This quarantine does not affect the status of nursery stock and other plants and seeds covered by special quarantines and other restrictive orders now in force.

The regulations governing the entry of the classes of plants listed in regulation 3 are similar to those hitherto in force and take into account the classification of countries into (1) those maintaining inspection and certification of nursery stock in accordance with the requirements of the plant quarantine act, and (2) countries which have not made provision for such compliance with the act. (See Appendix C.)

C. L. MARLATT,
Chairman, Federal Horticultural Board.

UNITED STATES DEPARTMENT OF AGRICULTURE.

FEDERAL HORTICULTURAL BOARD.

NOTICE OF QUARANTINE NO. 37.

Nursery Stock, Plant, and Seed Quarantine.

[Effective on and after June 1, 1919, and superseding the rules and regulations governing the importation of nursery stock into the United States which were promulgated to take effect on and after July 1, 1916.]

The fact has been determined by the Secretary of Agriculture, and notice is hereby given, that there exist in Europe, Asia, Africa, Mexico, Central and South America, and other foreign countries and localities, certain injurious insects and fungous diseases new to and not heretofore widely distributed within and throughout the United States, which affect and are carried by nursery stock and other plants and seeds, the words "nursery stock and other plants and seeds" including, wherever used in this notice and the rules and regulations supplemental hereto, field-grown florists' stock, trees, shrubs, vines, cuttings, grafts, scions, buds, fruit pits and other seeds of fruit and ornamental trees or shrubs, also field, vegetable, and flower seeds, bedding plants, and other herbaceous plants, bulbs, and roots, and other plants and plant products for, or capable of, propagation.

Now, therefore, I, D. F. Houston, Secretary of Agriculture, under the authority conferred by the act of Congress approved August 20, 1912 (37 Stat., 315), do hereby declare that it is necessary, in order to prevent the further introduction into the United States of injurious insect pests and fungous diseases, to forbid, except as provided in the rules and regulations supplemental hereto, the importation into the United States of nursery stock and other plants and seeds from the foreign countries and localities named and from any other foreign locality or country.

On and after June 1, 1919, and until further notice, by virtue of said act of Congress approved August 20, 1912, the importation of

nursery stock and other plants and seeds from the above named and all other foreign countries and localities, except as provided in the rules and regulations supplemental hereto, is prohibited.

This quarantine shall not apply to nursery stock and other plants and seeds covered by special quarantines and other restrictive orders now in force, a list of which is given in Appendix A of the rules and regulations supplemental hereto, nor to the importation by the United States Department of Agriculture of nursery stock and other plants and seeds for experimental or scientific purposes.

Done in the District of Columbia this 18th day of November, 1918.

[SEAL.] Witness my hand and the seal of the United States Department of Agriculture.

D. F. HOUSTON,
Secretary of Agriculture.

Rules and Regulations Supplemental to Notice of Quarantine No. 37 Governing the Importation of Nursery Stock and Other Plants and Seeds into the United States.

[Effective on and after June 1, 1919, and superseding the regulations heretofore issued governing the importation of nursery stock.]

Regulation 1. Definition.

The words "nursery stock and other plants and seeds" are used throughout these rules and regulations in the same sense as in Notice of Quarantine No. 37.

Regulation 2. Nursery stock and other plants and seeds for which permit is not required.

The following classes of nursery stock and other plants and seeds, not including, however, the particular nursery stock and other plants and seeds named in Appendix A, which are governed by special quarantines and other restrictive orders now in force, nor such as may hereafter be made the subject of special quarantines, may be imported without permit or other compliance with these regulations:

- (1) Fruits, vegetables, cereals, and other plant products imported for medicinal, food, or manufacturing purposes.
- (2) Field, vegetable, and flower seeds.

Regulation 3. Nursery stock and other plants and seeds for which permit is required.

The following nursery stock and other plants and seeds, not including, however, those named in Appendix A, which are governed by special quarantines and other restrictive orders now in force, nor such as may hereafter be made the subject of special quarantines, when free from sand, soil, or earth, may be imported from countries

which maintain inspection (see Appendix C), under permit upon compliance with these regulations, but, where a particular purpose is specified, for that purpose and no other:

- (1) Lily bulbs, lily of the valley, narcissus, hyacinths, tulips, and crocus.
- (2) Stocks, cuttings, scions, and buds, of fruits for propagation.
- (3) Rose stocks for propagation, including Manetti, Multiflora, Brier Rose, and Rosa Rugosa.
- (4) Nuts, including palm seeds, for propagation.
- (5) Seeds of fruit, forest, ornamental, and shade trees, seeds of deciduous and evergreen ornamental shrubs, and seeds of hardy perennial plants.

Importations of nursery stock and other plants and seeds specified in this regulation, from countries not maintaining inspection, may be made under permit upon compliance with these regulations in limited quantities for experimental purposes only, but this limitation shall not apply to tree seeds.

Regulation 4. Application for permits for importation of nursery stock and other plants and seeds.

Persons contemplating the importation of nursery stock and other plants and seeds¹ the entry of which is permitted under Regulation 3 shall first make application to the Federal Horticultural Board for a permit, stating in the application the exact designation of the nursery stock and other plants and seeds to be imported, the name and address of the exporter, the country and locality where grown, the port of entry, and the name and address of the importer in the United States to whom the permit should be sent.

Applications for permits should be made in advance of the proposed shipments, but if, through no fault of the importer a shipment should arrive before a permit is received the importation will be held in customs custody at the risk and expense of the importer for a period not exceeding 20 days pending the receipt of the permit.

Applications may be made by telegraph, in which case the information required above must be given.

Permits are not required for nursery stock and other plants and seeds, not under quarantine or regulation, entering the United States for immediate transportation in bond to foreign countries.

Applications for permits to import nursery stock and other plants and seeds from countries which do not maintain inspection must contain a definite statement of the quantity to be imported.

¹ A post-office order dated May 27, 1913, as amended December 16, 1913, prohibits the importation by mail of all growing or living plants, seeds, and other plant products for propagation, except field, vegetable, and flower seeds.

Regulation 5. Delivery in bond pending receipt of permit will be allowed for shipments from countries maintaining inspection.

If the required permit be not at hand upon arrival of a shipment from a country which maintains inspection, and such shipment meets the requirements of Regulations 7 and 8, it may be delivered to the importer, consignee, or agent for the proper care thereof upon the filing of a bond with approved sureties in double the invoice value (but in no case less than \$20), the condition of which shall be that the importation shall not be removed from the port of entry but shall be redelivered to the collector of customs within 20 days from the date of arrival at the port, unless in the meantime the collector is presented with a proper permit; or, if the importer, consignee, or agent shall so elect, the goods may, so far as the Department of Agriculture is concerned, be retained in customs custody for a period not exceeding 20 days, pending the issuance of the permit, wholly at the risk and expense of the importer.

Regulation 6. Issuance of permits.

On approval by the Secretary of Agriculture of an application for the importation of nursery stock and other plants and seeds a permit will be issued in quadruplicate. One copy will be furnished to the applicant for presentation to the customs officer at the port of entry, one copy will be mailed to the collector of customs and one to the inspector of the Department of Agriculture at the port of entry, and the fourth will be filed with the application.

Permits shall be valid until revoked unless otherwise specified therein and will be issued for the ports of Boston, New York, Newark, San Francisco, Seattle, and such other ports as may from time to time be approved by the Federal Horticultural Board. The permit will be addressed to the collector of customs at the port for which it is issued.

Regulation 7. Inspection, certification, and marking as a condition of entry.

The importation of nursery stock and other plants and seeds from countries which maintain inspection will not be allowed unless the invoice is accompanied by an original certificate, and unless each container bears a copy certificate, issued by a duly authorized official of the country from which it is exported, stating that the nursery stock and other plants and seeds covered by the certificate have been thoroughly inspected by him or under his direction and found, or believed to be, free from injurious plant diseases and insect pests. Nursery stock and other plants and seeds exported between October 1 and May 31 shall be inspected on or after the 1st of October, and those exported between June 1 and September 30 shall be inspected at the

time of packing: *Provided*, That for tropical and semitropical countries, or for stock grown under glass, the inspection shall be at time of packing throughout the entire year.

Nursery stock and other plants and seeds from countries which do not maintain inspection shall not be delivered to the importer or consignee until they have been examined by an inspector of the Department of Agriculture and found to be free from plant diseases and insect pests, or, if infested, capable in the judgment of the inspector of being adequately safeguarded by disinfection. All importations under this paragraph must also comply with the disinfection requirement of Regulation 9. Nursery stock and other plants and seeds inspected as provided herein, which are found to be carrying any plant disease or insect pest, and which, in the judgment of the inspector can not be cleaned by disinfection or treatment, shall be refused entry. All charges for storage, cartage, and labor incident to inspection and disinfection, other than the services of the inspector, shall be paid by the importer.

If a package of nursery stock and other plants and seeds offered for entry includes any prohibited article, the entire package will be refused entry.

Each case, box, or other container or covering of nursery stock and other plants and seeds offered for entry shall be plainly and correctly marked to show the number of the permit, the general nature and quantity of the contents, the district or locality and country where grown, the name and address of the exporter, and the name and address of the consignee.

Regulation 8. Foreign certificate of inspection.

Each certificate and copy certificate shall give the date of inspection; name of the grower or exporter; the district or locality and the country where grown; and a statement that the nursery stock and other plants and seeds have been inspected by a duly authorized official and found, or believed to be, free from insect pests and plant diseases. The original certificate shall be signed and sealed by, and the copy certificate shall bear the seal of, a responsible inspection official for the country of origin.

Lists of officials in foreign countries authorized to inspect nursery stock and other plants and seeds, giving their names and official designations, will be furnished to collectors of customs through the Secretary of the Treasury.

Regulation 9. Disinfection a condition of entry.

Nursery stock and other plants and seeds imported under Regulation 3 shall be subject as a condition of entry, to such disinfection as shall be required by the inspector of the Department of Agricul-

ture. When disinfection is required, the nursery stock and other plants and seeds involved will be delivered to the permittee for disinfection upon the filing with the collector of customs of a bond in the amount of \$5,000, or in an amount equal to the invoice value if such value be less than \$5,000 with approved sureties, the condition of which shall be that the nursery stock and other plants and seeds shall be disinfected under the supervision of an inspector of the Department of Agriculture; that no case or other container thereof shall be broken, opened or removed from the port of entry unless and until a written notice is given to such collector by an inspector of the Department of Agriculture that the nursery stock and other plants and seeds have been properly disinfected; and that the importation shall be redelivered to the collector of customs within 40 days from arrival at the port of entry.

Regulation 10. Notice of arrival by permittee.

Immediately upon arrival of the nursery stock and other plants and seeds at the port of entry, the permittee shall submit in duplicate notice to the Secretary of Agriculture, through the collector of customs, on forms provided for that purpose, stating the number of the permit, date of entry, name of ship or vessel, the country and locality where grown, name of the foreign shipper, number of cases and marks and numbers on cases, the general nature and quantity of the nursery and other plants and seeds, the port of entry, and the name of the importer or broker at the port of entry.

Regulation 11. Notice of shipment by permittee.

After entry of the nursery stock and other plants and seeds and before removal from the port of entry for each separate shipment or consignment thereof the permittee shall notify the Secretary of Agriculture in duplicate, on forms provided for that purpose, stating the number of the permit, the date of entry, the port of entry, the customs entry number, name and address of the consignee to whom it is proposed to forward the shipment, the general nature and quantity of the nursery stock and other plants and seeds, the number of cases or other containers included in the shipment, and the case or container numbers and marks, together with the probable date of delivery for and route of transportation. A separate report is required for each ultimate consignee.

At the same time a copy of the notice to the Secretary of Agriculture shall be sent by the permittee to the duly authorized inspector or other officer of the State, Territory, or District to which the nursery stock and other plants and seeds are to be shipped. A list of such inspectors and officers is appended.

Should a consignee named in such a notice ship or deliver for shipment to any other State, Territory, or District such nursery stock and other plants or seeds before they have been inspected by a duly authorized State, Territorial, or District inspector or officer, he shall, prior to such shipment, give like notices to the Secretary of Agriculture and to the duly authorized inspector or other officer of the State, Territory, or District to which the nursery stock and other plants and seeds are to be reshipped.

Nursery stock and other plants and seeds which have been once inspected and passed by a duly authorized State, Territorial, or District inspector or other officer, will be allowed to move interstate without restrictions other than those imposed on the interstate movement of domestic nursery stock.

Regulation 12. Marking a condition of interstate shipment of nursery stock and other plants and seeds not inspected.

No person shall ship or deliver for shipment from one State, Territory, or District of the United States into any other State, Territory, or District any imported nursery stock and other plants and seeds the case, box, package, crate, bale, or bundle whereof is not plainly marked so as to show the general nature and quantity of the contents, the name and address of the consignee, and the country and locality where grown, unless and until such imported nursery stock and other plants and seeds have been inspected and passed by the proper official of a State, Territory, or District of the United States.

Regulation 13. Cancellation of permits for violation of regulations.

Permits may be canceled and further permits refused for the importation of the products of any grower or exporter who has violated the Plant Quarantine Act or any rules and regulations promulgated thereunder, or for the importation of the products of any country whose inspection is found by the Federal Horticultural Board as the result of its examinations of importations therefrom to be merely perfunctory, or for the failure of a permittee to give any notice required by these rules and regulations, or for the giving of a false or incomplete notice or the mislabeling of any shipment with intent to evade any provision of the Plant Quarantine Act or any rules and regulations thereunder.

Regulation 14.

These regulations shall not apply to the importation by the United States Department of Agriculture of nursery stock and other plants and seeds for experimental or scientific purposes.

The above rules and regulations are hereby adopted and shall be effective on and after June 1, 1919, and shall supersede the rules and regulations governing the importation of nursery stock into the United States, which were promulgated to take effect on and after July 1, 1916.

D. F. HOUSTON,
Secretary of Agriculture.

NOVEMBER 18, 1918.

APPENDIX A.

The entry of the following plants and plant products is prohibited or restricted by specific quarantines and other restrictive orders now in force:

(a) Irish potatoes from all countries except the Dominion of Canada and Bermuda. Irish potatoes may be imported from any foreign country into the Territories of Hawaii and Porto Rico, for local use only, free from any restrictions under the Plant Quarantine Act.

(b) Oranges, sweet limes, grapefruit, mangoes, achras sapotes, peaches, guavas, and plums from the Republic of Mexico.

(c) All five-leafed pines and all species and varieties of the genera *Ribes* and *Grossularia*, from each and every country of Europe and Asia and from the Dominion of Canada and Newfoundland.

(d) Cotton seed (including seed cotton) of all species and varieties, and cottonseed hulls, from any foreign locality and country.

(e) Seeds of the avocado or alligator pear from Mexico and the countries of Central America.

(f) Living canes of sugar cane or cuttings or parts thereof from all foreign countries. There are no Federal restrictions on the entry of such materials into Hawaii and Porto Rico.

(g) All citrus nursery stock including buds, scions, and seeds, from all foreign localities and countries.

(h) All pines not included in paragraph (c) from all European countries and localities.

(i) Seed and all other portions in the raw or unmanufactured state of Indian corn or maize (*Zea mays* L.), and the closely related plants, including all species of Teosinte (*Euchlaena*), Job's tears (*Coix*), *Polytoca*, *Chionachne*, and *Sclerachne*, from southeastern Asia (including India, Siam, Indo-China, and China), Malayan Archipelago, Australia, New Zealand, Oceania, Philippine Islands, Formosa, Japan, and adjacent islands.

(j) All species and varieties of citrus fruits from eastern and southeastern Asia (including India, Siam, Indo-China, and China), the Malayan Archipelago, the Philippine Islands, Oceania, (except Australia, Tasmania, and New Zealand), Japan (including Formosa and other islands adjacent to Japan), and the Union of South Africa.

(k) All varieties of sweet potatoes and yams (*Ipomoea batatas* and *Dioscorea* spp.) from all foreign countries and localities.

(l) All species or varieties of banana plants (*Musa* spp.) from all foreign countries and localities.

(m) Fruits of the avocado or alligator pear and avocado nursery stock less than 18 months of age from Mexico and the countries of Central America.

(n) Cotton from all foreign countries and localities.

(o) Cottonseed oil from Mexico and cottonseed cake, meal, and all other cottonseed products, except oil, from all foreign countries.

(p) All varieties of bamboo seed, plants, or cuttings thereof, capable of propagation, including all genera and species of the tribe *Bambuseae*, from all foreign countries.

APPENDIX B.

FORMS REQUIRED BY THE FOREGOING REGULATIONS.

[These will be furnished on application.]

UNITED STATES DEPARTMENT OF AGRICULTURE, FEDERAL HORTICULTURAL BOARD,
WASHINGTON, D. C.

Application for permit to import nursery stock and other plants and seeds.

-----, 19--.

To the Federal Horticultural Board, Washington, D. C.

SIRS: A permit is requested for the importation of the following nursery stock and other plants and seeds:

Exact designation of nursery stock and other plants and seeds to be imported.
(If from a country which does not maintain inspection the exact quantity to be imported must be given.)

Name and address of exporter-----

Country where grown-----

Locality where grown-----

Port of entry-----

Name and address of person (either applicant or his agent or broker) to whom
permit should be mailed-----

Very respectfully,

(Name of applicant.)

(Address.)

UNITED STATES DEPARTMENT OF AGRICULTURE,

FEDERAL HORTICULTURAL BOARD,

WASHINGTON, D. C.

Permit to import nursery stock and other plants and seeds.

(Valid until revoked.)

-----, 19--.

To the Collector of Customs-----

You are hereby authorized, so far as the jurisdiction of the Department of Agriculture is concerned, to permit the entry under the plant quarantine act,

approved August 20, 1912, of the nursery stock and other plants and seeds described below, in accordance with the rules and regulations supplemental to notice of quarantine No. 37 governing the importation of nursery stock and other plants and seeds into the United States, effective on and after June 1, 1919.

Exact designation of nursery stock and other plants and seeds to be imported.

Name and address of exporter-----

Country and locality where grown-----

Name and address of importer-----

Respectfully,

D. F. HOUSTON,
Secretary of Agriculture.

Countersigned:

 Chairman of board.

 In charge of entry of plants and plant
 products under restriction.

Customs entry No.-----

Importer's or broker's report of arrival of nursery stock and other plants and seeds.

In accordance with section 2 of the plant quarantine act of August 20, 1912, and Regulation 10 of the rules and regulations supplemental to notice of quarantine No. 37 governing the importation of nursery stock and other plants and seeds into the United States, approved November 18, 1918, the information provided for in this blank must be given to the Secretary of Agriculture, Washington, D. C., through the collector of customs where entry is made, immediately upon arrival of the nursery stock and other plants and seeds at the port of entry.

D. F. HOUSTON,
Secretary of Agriculture.

STATE INSPECTION OFFICIALS.

-
- Alabama: State Horticulturist, Alabama State Board of Horticulture, Auburn, Ala.
- Alaska: Agronomist in Charge, Alaska Agricultural Experiment Station, Sitka, Alaska.
- Arizona: State Entomologist, Phoenix, Ariz.
- Arkansas: State Inspector, Fayetteville, Ark.
- California: Horticultural Quarantine Officer, room 11, Ferry Building, San Francisco, Cal.
- Colorado: State Entomologist, Colorado Agricultural Experiment Station, Fort Collins, Colo.
- Connecticut: State Entomologist, New Haven, Conn.
- Delaware: Secretary, State Board of Agriculture, Dover, Del.
- District of Columbia: United States Department of Agriculture, Federal Horticultural Board.
- Florida: State Plant Board of Florida, Gainesville, Fla.
- Georgia: State Entomologist, Atlanta, Ga.
- Guam: Special Agent in Charge, Guam Agricultural Experiment Station, Island of Guam (via San Francisco).
- Hawaii: Board of Commissioners of Agriculture and Forestry, Honolulu, Hawaii.
- Idaho: State Horticultural Inspector, Boise, Idaho.
- Illinois: Chief Inspector, Office State Entomologist, Urbana, Ill.
- Indiana: State Entomologist, Indianapolis, Ind.
- Iowa: State Entomologist, Iowa State College, Ames, Iowa.
- Kansas, North: State Entomologist, Kansas State Agricultural College, Manhattan, Kans.
- Kansas, South: Entomologist, University of Kansas, Lawrence, Kans.
- Kentucky: State Entomologist, Kentucky Agricultural Experiment Station, Lexington, Ky.

- Louisiana: Entomologist, State Board of Agriculture and Immigration, Baton Rouge, La.
- Maine: State Horticulturist, Augusta, Me.
- Maryland: State Entomologist, College Park, Md.
- Massachusetts: State Nursery Inspector, Statehouse, Boston, Mass.
- Michigan: State Inspector of Nurseries, East Lansing, Mich.
- Minnesota: State Entomologist, St. Paul, Minn.
- Mississippi: Entomologist, Agricultural College, Miss.
- Missouri: Entomologist, University of Missouri, Columbia, Mo.
- Montana: Montana State Board of Horticulture, Missoula, Mont.
- Nebraska: State Entomologist, University of Nebraska, Lincoln, Nebr.
- Nevada: Director, Nevada Agricultural Experiment Station, Reno, Nev.
- New Hampshire: Deputy Commissioner of Agriculture, Durham, N. H.
- New Jersey: State Entomologist, New Brunswick, N. J.
- New Mexico: Horticulturist, New Mexico Agricultural Experiment Station, State College, N. Mex.
- New York: Commissioner of Agriculture, Albany, N. Y.
- North Carolina: State Entomologist, State Department of Agriculture, Raleigh, N. C.
- North Dakota: Director, North Dakota Agricultural Experiment Station, Agricultural College, N. Dak.
- Ohio: Chief Inspector, Ohio Department of Agriculture, Columbus, Ohio.
- Oklahoma: Secretary, State Board of Agriculture, Oklahoma City, Okla.
- Oregon: Secretary, State Board of Horticulture, Portland, Ore.
- Pennsylvania: Chief Nursery Inspector, Harrisburg, Pa.
- Porto Rico: Entomologist, Board of Commissioners of Agriculture, Rio Piedras, P. R.
- Rhode Island: Entomologist, room 129, Statehouse, Providence, R. I.
- South Carolina: State Entomologist, Clemson College, S. C.
- South Dakota: State Entomologist, South Dakota State College, Brookings, S. Dak.
- Tennessee: State Entomologist, Knoxville, Tenn.
- Texas: Chief Inspector of Nurseries, Houston, Tex.
- Utah: State Crop Pest Inspector, Salt Lake City, Utah.
- Vermont: State Nursery Inspector, Burlington, Vt.
- Virginia: State Entomologist, Blacksburg, Va.
- Washington: Commissioner of Agriculture, Olympia, Wash.
- West Virginia: State Entomologist, Morgantown, W. Va.
- Wisconsin: State Entomologist, State Capitol, Madison, Wis.
- Wyoming: Secretary, State Board of Horticulture, Laramie, Wyo.
